"Man is the expression of God's being," writes Mary Baker Eddy in "Science and Health with Key to the Scriptures." Again she says, "The relations of God and man, divine Principle and idea, are indelible in Science; as Science knows no lapse from nor return to harmony, but holds the divine order or spiritual law, in which God and man that He creates are perfect and eternal, to have remained unchanged in its eternal history."

HEADS MOTHER CHURCH... Mrs. Helen C. Elwell, C.S., incoming president of The First Church of Christ, Scientist, in Boston, Mass. A resident of East Hebron, N.H., she is a local member of The Mother Church.

Christian Science first came to her family in the Philippine Islands while her father, Lieut. Gen. Adna R. Chaffee, was Military Governor, following his command of the international forces in China during the Boxer Rebellion, and prior to his becoming Chief of Staff of the United States Army. The study of the Christian Science textbook, and witnessing the healing power of the Church, united her family, satisfied Mrs. Elwell that Christian Science, as revealed by Mary Baker Eddy, was the reinstatement of primitive Christianity as taught and demonstrated by Christ Jesus.

Mrs. Elwell became a member of The Mother Church in 1913, receiving class instruction in the same year. She has had membership in several branch churches as her travels permitted. Upon residing in Boston, she entered the public practice of Christian Science in 1923. She was for five years Assistant Superintendent of The Mother Church Sunday School, and for four years a member of the Christian Science Bible Lesson Committee. Mrs. Elwell has just completed a term of three years' service as Second Reader in The Mother Church.

Matz and the presiding bishop.

Fliers Warned To Avoid Seal Beach Ammunition Spot

There's ammunition enough to make one terrible blast in those harmless looking hills at the Seal Beach Naval ammunition and net depot, and Capt. R. J. Townsend, commanding officer of the depot, would appreciate it if light aircraft would stop "buzzing" the depot's high explosive area. Doubtless, said Capt. Townsend, most of the pilots doing the low flying aren't aware of the hazards. Purposely camouflaged during the war, the depot presents a deceptively peaceful, even rural, appearance with relatively few vehicles or personnel moving.

The letter goes on to point out that 500 employees are working in the depot and that there are thousands of tons of high explosives on the base and one plane crash there would effect just the opposite of the purpose of the thousands of safety devices in use on the depot.

He who is afraid of being too generous has lost the power of being magnanimous. The best man or woman is most unselfed. -Mary Baker Eddy
